

FIVE FAST FACTS FOR FRIDAY

Helping Hands Family

- They work with children, their families, and the clinical team to create an individualized treatment plan.
- They have many locations in New Jersey. These include Chatham, Edison, Monmouth County, Mt Laurel, Paramus, and Toms River. They also have locations in Connecticut, New York, Maryland, and Pennsylvania.
- Their therapists are either Board Certified Behavior Analysts or Registered Behavior Technicians that have experience working with children with autism.
- The intake process:
 - Initial phone call
 - Collection of documentation
 - Assessment
 - Treatment plan creation
