DEPARTMENT OF HUMAN SERVICES.

Division of Mental Health and Addiction Services

Directory of Mental Health Services

(DMHAS CONTRACTED PROVIDERS ONLY)

Updated March 2023

Introduction

The mission of the Division of Mental Health and Addiction Services in New Jersey is to promote opportunities for adults with serious mental illness to maximize their ability to live, work, socialize, and learn in communities of their choice. This is accomplished through a comprehensive culturally competent system of care, including psychiatric inpatient settings and community-based support services comprised of partnerships among the Division of Mental Health and Addiction Services, other State agencies, consumers, families, providers, and mental health advocates, with the understanding that adults with serious mental illness are entitled to dignified and meaningful lives.

This mission is realized in both new and existing Division programs by application of the following operating principles:

Services are to be delivered by means of a comprehensive system of care, which emphasizes the most appropriate, least restrictive settings to promote the highest level of functioning;

There must be continuity of care and coordination of services within the State and between the public and private sectors;

The range of services within the system of care must respond to the needs of the individual consumers and to the special populations served;

The Division must assure appropriate, high quality care for the State's most severely disabled citizens in State psychiatric hospitals and for the less disabled citizens in community programs.

This directory is intended to provide information about mental health programs in the State of New Jersey. A wide variety of programs are offered at many locations in all twenty-one counties in the state. This directory does not attempt to provide information about all mental health services available within the State of New Jersey. The providers listed here have been limited to only those which receive some funding from the State of New Jersey through the Division of Mental Health and Addiction Services. In some cases, this source of public funding represents only a small portion of the overall budget of the provider. In other cases, the service provider is directly operated or predominately funded by the Division of Mental Health and Addiction Services. In some cases, community service providers offer additional programs beyond the field of mental health. Such programs may be targeted at the developmentally disabled, substance user or other populations. Only mental health programs are included in this directory.

Every attempt has been made to insure that the information published in this directory is current and accurate at the time of printing. However, service providers and locations do change over time so it is possible that a reference to a program included here may no longer be available. In such an event, persons are encouraged to contact the Division of Mental Health and Addiction Services at 1-800-382-6717 for referral.

How to Use this Book

To best take advantage of this directory, you should answer two questions to find someone to contact for information about mental health programs and services in your area.

1. *What county does the person seeking services live in?*

Go to that county page in the directory. (*see table of contents for page number*)

2. *What mental health service(s) in the county list might be needed?*

Go to that service in the county list and see what local providers are available.

Contact the local service provider and request an intake evaluation.

In an emergency situation, where there is an immediate risk of injury to people, contact your county primary screening center. The screening center listings are highlighted with capital letters in the county listing. Your county screening center is also listed in the emergency section of your local phone book under “Psychiatric Crisis Intervention Unit” or similar listing.

This book is intended to help citizens of New Jersey locate information about available mental health services in the state. You may be looking for help for yourself or for someone you care about. Brief descriptions of the mental health services are provided with each program section beginning on page 61. Read about the different types of services and try to decide what might be helpful to the person in question. If you locate a program which you think would address the person’s issues, you can then contact a local program provider for more information. The person seeking programming must begin contacts in their county of residence. Your county of residence page will identify agencies offering these programs.

The second major section of the book groups agencies by the type of program offered. If you are interested in locating all providers of integrated case management services look on pages 79 and 80. Each program has their own list in this section. Agencies providing the services are arranged alphabetically. Since agencies can provide the same service at more than one location there may be multiple listings for these agencies. Mental Health Agencies can provide more than one program type and therefore, agencies are listed under as many program sections as needed.

BY PROGRAM TYPE

ACUTE CARE FAMILY SUPPORT

The Acute Care Family Support Project is targeted to families with an adult member who is experiencing a psychiatric crisis and is being assessed in a Screening Center or Affiliated Emergency Service. They provide onsite or offsite support to the family while their loved one is being assessed, educate them regarding services/treatment in an acute care setting, including the commitment process, and link them to existing family support in the community. Family may also include significant others and primary caretakers.

CRISIS DIVERSION

An intensive case management program designed to reduce unnecessary psychiatric hospitalizations. Crisis Diversion programs focus on assisting individuals in identifying and obtaining treatment goals, and providing support and linkages to the services that an individual needs to stay in their own environment and in the community.

Bright Harbor Healthcare 687 Route 9 Bayville, NJ 08721 (732) 269-4849 / (732) 240-3760	Collaborative Support Program of NJ 11 Spring St Freehold, NJ 07728 (732) 354-4403

DESIGNATED SCREENING CENTERS

Screening Center - A public or private ambulatory care service designated by the Commissioner, which provides mental health services including assessment, emergency and referral services to mentally ill persons in a specified geographical area. Screening is the process by which it is ascertained that the individual being considered for commitment meets the standards for both mental illness and dangerousness as defined in P.L. 1987,c.116 (N.J.S.A. 30.4-27.1 et seq.) and that all stabilization options have been explored or exhausted.

INTENSIVE FAMILY SUPPORT SERVICES (IFSS)

Intensive Family Support Services (IFSS) comprise a range of supportive activities designed to improve the overall functioning and quality of life of families with a mental ill relative. These support activities may include psychoeducation groups, single family consultation, respite services, family support groups, systems advocacy and referral/service linkage. Services may be delivered in the family's home, at an agency, or at a community location convenient to the family.

INTENSIVE OUTPATIENT TREATMENT AND SUPPORT SERVICES (IOTSS)

Community based ambulatory treatment alternatives for adults who have serious and persistent mental illness. Access to the service is intended to provide an option for Designated Screening Programs and other acute care and hospital referral sources to assure that appropriate, intensive, community based, recovery-oriented outpatient services are readily accessible. These programs provide a comprehensive outpatient service package that addresses the needs of individuals with an exacerbation of the symptoms of mental illness and/or a co-occurring substance abuse disorder through services that include comprehensive assessments, Wellness and Recovery Action Plans (WRAPS), Medication Administration and Education, Individual Therapy, Structured Group Therapy, Illness Management and Relapse Prevention Groups, Family psycho-education, the provision of, or arrangements for, physical health care and direct linkage to ongoing clinical and support services as identified in the WRAP. Such outpatient services are designed and implemented in a manner which reflects recovery as an overarching value as well as an operational principle.

INVOLUNTARY OUTPATIENT COMMITMENT (IOC)

Involuntary Outpatient Commitment (IOC) programs coordinate community based mental health services for individuals, who are court ordered into mental health treatment. IOC programs enroll individuals who have been assessed by mental health professionals and adjudicated by a court as meeting the legal standard for involuntary outpatient treatment. IOC programs offer:

- Court ordered out-patient based mental health treatment;
- Assistance with linking with community based mental health services;
- Monitoring of adherence to the court ordered plan;
- Ongoing assessment of clinical progress;
- Interface with the judiciary including transportation to court hearings and contact with the presiding judge, as needed.

JUSTICE INVOLVED SERVICES

Justice Involved Services are designed to assist persons with serious and persistent mental illness who become entangled with the criminal justice system, to avoid or radically reduce the number of days incarcerated in jail and or assist with their reentry to their communities in order to receive the appropriate treatment. Services vary by county, but may include the following: Pre-booking, a police based diversion to avoid arrest for non-criminal, non-violent offenses. Police are trained to identify and de-escalate situations and diverting to mental health crisis or pre-crisis services; Post booking intervention for consumers who have been arrested but for whom the court may be released on their own recognizance or released from jail with mental health intervention. Those consumers serving jail sentences or long detention are targeted for re-entry services. Based upon the APIC model, Assess, Plan, Identify and Coordinate, services include identification/case finding, pre-release planning and successful linkage to critical mental health, social service, employment and housing upon release to the community.

OUTPATIENT SERVICES

Services provided to clients who possess a psychiatric diagnosis, including clients who are seriously and persistently mentally ill, but excluding substance abuse and developmental disability unless accompanied by treatable symptoms of mental illness. Periodic therapy, counseling and supportive services are generally provided at the provider agency for relatively brief sessions (between 30 minutes and 2 hours).

RESIDENTIAL SERVICES

A program for mentally ill adults in community residences owned or leased by the provider or through service agreements providing support and encouragement in the development of life skills required to sustain successful living within the community. Clients live in the most normalized, least restrictive environment possible to promote individual growth and safety. Programming focuses on empowering the client's use of generic community supports to meet physical, psychological and social needs to promote an improved quality of life and emotional well being.

SHORT TERM CARE FACILITIES (STCF)

Acute care adult psychiatric units in a general hospital for the short term admission of individuals who meet the legal standards for commitment and require intensive treatment. All admissions to STCF's must be referred through an emergency or designated screening center. STCF's are designated by DMHAS to serve a specific geographic area, usually a county.

SUPPORTED EDUCATION (SED)

Provides direct services and support in educational coaching so that consumers may enter and succeed in educational opportunities. SED also serves as an information clearinghouse for consumers, families, colleges, and providers within a geographical area. Direct service may include the provisions of supported educational coaching services provided directly to the consumer in the educational setting. The services also include enrollment and registration assistance, teaching study skills, illness management and recovery skills particularly related to school, assistance and advocacy in obtaining "reasonable accommodations" from the school.

VOLUNTARY UNIT

A unit within a hospital which provides transitional intensive short term treatment for the care of adult patients affected with acute or chronic mental illness on a voluntary basis. These units may be intermingled on STCF (short term care facility) units. Individuals under this status voluntarily admit themselves for a STCF for stabilization and treatment. However, a STCF shall agree to make every effort to discharge the person to appropriate voluntary outpatient services before making a referral to a State or county hospital.
