

FIVE FAST FACTS FOR FRIDAY

New Jersey Institute for Disabilities (NJID)

- The New Jersey Institute for Disabilities (NJID) offers specialized facilities, programs and supports throughout the State of New Jersey and beyond for infants, children and adults with developmental and related disabilities.
- NJID offers programs to enrich the lives and enhance the development of each infant, child and adult with intellectual, developmental and related disabilities to enable each individual to achieve full potential
- NJID provides, as early as possible, evaluation, identification, diagnosis and treatment to infants, children and adults so that the number and severity of functional needs can be significantly reduced
- NJID fosters dignity, independence and purposefulness to all who enter into NJID's programs
